

Albert Kim

SOFTWARE ENGINEER

albertkim0115@gmail.com | 213-568-5022 | [LinkedIn](#) | [Github](#) | [Portfolio](#) | Los Angeles, CA

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, HTML5/CSS

Frameworks/Tools: React/Redux, Flask/Jinja, Node.js, Express.js, SQL/Sequelize, SQLALchemy, PostgreSQL, Postman, Render, DbDiagram

Relevant Skills: Git, Github, Pair Programming, SCRUM methodology, Agile WorkFlow, DRY principles

PROJECTS

WorstBuy | *Python/PostgresSQL • React/Redux • HTML/CSS • Flask* [Live](#) | [Github](#)

- Spearheaded the end-to-end development of a project from scratch, taking ownership of critical components such as creating a comprehensive database schema, outlining API documentation, designing wireframes, defining an MVP feature list, and documenting user stories.
- Refactored the backend and frontend codebase, optimizing performance and improving code readability, resulting in a more efficient and maintainable software architecture.
- Conducted extensive testing and debugging, ensuring a smooth user experience and minimizing potential bugs.
- Leveraged Python's powerful data processing features, such as list comprehensions and built-in data structures, to efficiently retrieve and process data from the database leading to smooth and organized data handling.

FriendZone | *Python/PostgresSQL • React/Redux • HTML/CSS • Flask • AWS* [Live](#) | [Github](#)

- Collaborated with a team of 4 developers, actively participating in code reviews, sprint planning, and agile methodologies to ensure the timely delivery of a 1-week due project while maintaining a high standard of code quality and utilizing efficient Git and pull request workflow to minimize potential merge conflicts.
- Developed a visually appealing login page for FriendZone using JSX and CSS, closely resembling the user experience of Facebook's login feature, ensuring a familiar authentication process for users.
- Integrated comprehensive CRUD (Create, Read, Update, Delete) functionality, enabling seamless user interaction in post creation, commenting, and liking while enhancing the overall user experience and driving user engagement.
- Leveraged AWS S3 to create a dedicated image bucket, enabling storage, retrieval, and efficient management of images within the application, enhancing performance and scalability.

StoryBnb | *JavaScript/Sequelize • React/Redux • Express.js • Node.js • HTML/CSS* [Live](#) | [Github](#)

- Implemented Node.js/Express server to handle asynchronous HTTP requests to multiple endpoints, ensuring efficient handling of concurrent requests and maintaining a responsive backend infrastructure.
- Actively participated in daily stand-up meetings, providing detailed updates on progress, discussing challenges, and next plan of action to ensure project goals were being met.

EXPERIENCE

Leasing Agent/Leasing Consultant | *Moss & Company* • Los Angeles, CA **July 2022 – Jan 2023**

- Efficiently utilized CRM software and property management systems to streamline leads, leases, and tenant management while demonstrating proficiency in technology-driven data organization, adaptability to new technologies, and demonstrating a quick learning curve.
- Demonstrated a proactive attitude towards learning and professional development by staying updated with industry best practices, the current housing market, attending workshops, and participating in meetings.

EDUCATION

APP ACADEMY | San Francisco, CA | Online **July 2023**
24-Weeks Immersive Software Engineering Bootcamp

JOHNSON & WALES UNIVERSITY | Providence, RI **May 2018**
Bachelors In Hotel Management | Associates in Culinary Arts
